- Canva

Education

WE School of Applied Technology

Web Development & Programming

Track

Strengths

- Clean & Organized Coding
- Fast Learning

Professional Summary

A passionate Front-End Developer with strong skills in building modern, responsive, and visually appealing websites. I focus on writing clean, maintainable code, creating smooth user experiences, and turning ideas into real digital products. Programming for me isn't just code — it's creativity, logic, and solving real problems.

Projects

1. Portfolio Website

Proven range with responsive design and clean code.

2. Clean Code Page

Structurally valid HTML using semantic elements.

3. Programming Languages Information Page

Fully structured educational page built.

4. Coding Section Page

Reusable components for reuse.

5. Multiple UI Cards & Modals

Creator of reusable UI components for reuse.
